DETAILED ACTION

Claims 1-26 are pending in the application.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 5-8 and 11-26, drawn to compounds, compositions, process of preparing and method of use of the compounds of formula I where Y is a piperazine ring.

Group II, claim(s) 1-3 and 5-26, drawn to compounds, compositions, process of preparing and method of use of the compounds of formula I where Y is a piperidine ring.

Group III, claim(s) 1, 2, 4-8, 11, 13-20 and 23-26, drawn to compounds, compositions and method of use of the compounds of formula I where Y is a pyrrolidine ring.

Group IV, claim(s) 1, 2, 4-8, 11, 13-20 and 23-26, drawn to compounds, compositions and method of use of the compounds of formula I where Y is a azepan ring.

Art Unit: 1624

Group V, claim(s) 1, 2, 4-8, 11-20 and 23-26, drawn to compounds, compositions and method of use of the compounds of formula I where Y is a 1,4-diazepine ring.

Group VI, claim(s) 1, 2, 5-8, 10, 11, 13-20 and 23-26, drawn to compounds, compositions and method of use of the compounds of formula I where Y is a 1,3,8-triazaspiro[4.5]dec-8-yl ring.

Group VII, claim(s) 1, 2, 5-8, 10, 11, 13-20 and 23-26, drawn to compounds, compositions and method of use of the compounds of formula I where Y is a 2,5-diazabicyclo[2.2.1]hept-2-yl ring.

Group VIII, claim(s) 1, 2, 5-8, 10, 13-20 and 23-26, drawn to compounds, compositions and method of use of the compounds of formula I not embraced by Groups I-VII above.

The inventions listed as Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I-VIII are different significantly in chemical structures. They are consequently separately classified in the U.S. Patent Classification System and require separate searches in the Chemical literature. None of the prior art considers these groups as functional equivalents. Each group can support a patent.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

If Group VIII is elected further restriction to a particular core and/or election of species would be required by the examiner.

Tentative election of a single species within the elected group is further required.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda Coleman whose telephone number is 571-272-0665. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mukund Shah can be reached on 571-272-0674. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
